Defining CLIL

- CLIL stands for **Content and Language Integrated Learning** and it **USUALLY** refers to teaching academic subjects such as science, history, and geography through a foreign language.
- CLIL can also be about teaching any kind of non-academic subject matter such as photography, cooking, or yoga in a foreign language.
- CLIL courses are driven by content and can be either ***soft***: teaching a few words in a foreign language or ***hard***: teaching an entire course in a foreign language.

Gardeners discovered Portrait of a Lady while clearing ivy at gallery in Piacenza

- A painting found hidden in an Italian gallery in December is an authentic [Gustav Klimt](#) piece stolen almost 23 years ago, experts have confirmed.
- The **Portrait of a Lady** was one of the world's most sought-after stolen artworks before it was found concealed in a wall of the Ricci Oddi modern art gallery, the same gallery from where it went missing in the northern city of Piacenza.
- Ornella Chicca, the Piacenza prosecutor, said at a press conference: "It's with no small emotion that I can tell you that the work is authentic."
- The painting [was discovered by two gardeners](#) as they cleared ivy on an exterior wall of the gallery on 10 December. The pair discovered a metal panel, which, when opened, revealed a cavity with a painting in a bag. An initial inspection indicated that the painting was the 1917 work by the Austrian art nouveau painter.
